Construction Advisory

Bike Lane Installation along West Georgia Dr.

The West Georgia Dr. Bike Lane Project will take place Wednesday August 12 through Friday August 21 and will involve the removal of curbside parking along West Georgia Dr and the painting of bike lanes along the street’s perimeter. The project will begin with removing paint from the curbs and street parking spaces as well as selective milling of some pavement markings. This will be followed by the painting of bike lanes and the installation of signage along the street.

Please use caution while driving if encountering this roadside work.

Any questions can be directed to Fred Ricketson at 678-839-5599.

Thank you for your patience while we move forward with this achievement in sustainability as we strive to make UWG the best comprehensive university in America.

Go West!!
